CERTIFICATE III IN CLEANING OPERATIONS

Provide quality cleaning services resulting in a sanitisation transformation

COURSE DESCRIPTION

This qualification reflects the role of cleaners responsible for undertaking a range of routine and non-routine tasks according to work schedules, liaising with clients and in some cases members of the public, and operating in a range of general residential and commercial settings as well as specialist cleaning environments.

During this program students will learn the latest cleaning techniques including following procedures for safe work practices, how to contribute as a leader in the workplace, ensuring the safety and security of cleaning storage areas including handling of waste and responding to emergency situations, PPE and use of cleaning products and equipment to plan, prepare and clean furniture and fittings and tidy work site.

The cleaner may work alone, with or without supervision, and has responsibility for selecting, preparing and using appropriate cleaning methods for a range of cleaning situations while ensuring safe work practices.

COURSE OUTCOMES

Students will learn how to undertake cleaning operations, infection control and first aid that ensure thorough, safe and quality services for a range of environments.

At the completion of this course students can adequately use these skills and knowledge when undertaking tasks in their workplace or look for employment in the cleaning industry.

These students will be an asset to any organisation needing cleaning services and will exhibit a positive can do attitude further developed and encouraged during our transformational program.
